

I desire for AIR 1 to remain on my local radio station. My family and I receive great benefits from the music and services we gain from this station. This station also keeps us up to speed on local activities in my area. AIR 1 is the only station that I feel serves myself and my children together, there is never anything inappropriate that would be harmful for my children to hear. AIR 1 provides "clean" music and talk that is so lacking in the stations of today. It would be disappointing to see AIR 1 disappear, I greatly enjoy the ability to listen to AIR 1 24/7, the station of my choice. Please ensure that this listener supported station remains on the air for those who are shareholders in its vision and the services it provides. Thanks Marcia Rodgers
